

A high-angle photograph of a white ceramic farmhouse-style sink. The sink features a classic apron front with vertical ribbing. It is set into a white marble countertop with grey veining. A polished chrome faucet with a high arch and cross-handle is positioned to the right of the sink. To the left of the faucet is a chrome side sprayer with a long, straight handle. The sink has a single drain with a chrome strainer. The base of the sink is integrated into dark green cabinetry.

SINKS & TAPS COLLECTION

Exclusively available from

wextrade

YOUR TRUSTED WORKTOP PARTNER

SINKS & TAPS COLLECTION

Introducing a carefully curated collection of stainless steel, composite and ceramic sinks in both inset and undermounted designs exclusively from WEX Trade.

The collection includes stylish modern and traditional designed taps in a choice of colours and sizes, including swing, swivel, pull-out and hot taps, so you can select the tap that best suits your kitchen design.

This stunning collection offers something for everyone.

EASE AND PEACE OF MIND

For ease, all our products include the necessary parts needed to install your sink and taps, within the box, such as waste kits. Our sinks come with either a lifetime or five year warranty on parts. While our taps come with a 10 year parts warranty. We also offer a 1 year warranty on hoses and a 3 year warranty on pipes. Giving you additional peace of mind.

WEX TRADE YOUR TRUSTED PARTNER

WEX Trade partners with businesses across the UK. We pride ourselves on having the highest quality products and services you can rely on including a dedicated transport fleet and delivery team, and a support team available on the phone or email to take your orders and help with any queries you may have.

SINKS

Kitchen sinks are one of the most important components of a kitchen. Your kitchen sees it all, from cooking unforgettable meals (and cleaning up afterwards) to hosting parties and making your everyday cup of tea - none of which would be possible without your kitchen sink. Despite its vital nature, a kitchen sink can still be stylish and fit the theme of your kitchen. Browse our range of kitchen sinks and taps, and find your perfect combination.

The WEX Trade collection offers a choice of materials, colours and sizes, enabling designers to create stunning kitchen spaces.

SINKS

SINK TYPES

INSET

An Inset sink sits on top of the worktop and is compatible with any choice of worktop material including solid wood, laminates and stones. Inset sinks often include an integrated drainer for ease and durability. The tap is usually mounted on the sink. The sink is often designed with two tap holes giving you the option to position the drainer left or right.

UNDERMOUNTED

Undermounted sinks can be fitted with solid wood, compact laminate surfaces such as Aria®, as well as solid stone, marble and granite.

We offer a wide range of bowl sizes and configurations, providing you with ultimate versatility. The tap is often mounted on the worktop, creating a premium, sleek finish.

SINK SIZES

Across our comprehensive sink collection, we have several sink sizes available. In the initial planning stages, it is important to consider how the kitchen is to be used

to determine which option is best suited to your lifestyle requirements. Think about how the kitchen is used and what elements of a sink would make tasks easier.

COMPOSITE SINKS

Our composite sinks range are both hard-wearing and durable, as well as stain and heat-resistant, making them ideal for a hard-working kitchen.

They come in a choice of three sleek, contemporary neutral shades of black, grey and white, which are perfectly complemented with our range of taps, allowing you to create outstanding kitchen designs without compromising on style or performance.

SINKS COLLECTION

SINGLE BOWL UNDERMOUNT

MATT BLACK
Code: SNK-QU-000099-65-BL

CERAMIC SINKS

TRADITIONAL AND MODERN CERAMIC SINKS

Our ceramic sink collection offers a sink for all kitchen designs including inset or undermounted styles, in a choice of sizes.

The simple elegance of the classic ceramic sink looks fantastic in either a modern or traditional setting. If you like the classic look, choose one of our Belfast sinks, deep enough for washing stock pots (or bathing babies).

If you are looking for a beautiful ceramic sink with a contemporary twist, the beautiful fluted Belfast is designed to elevate your kitchen space.

The taps featured in these ceramic images are for illustration purposes only. Please refer to pages 30-41 for details of our full tap collection.

CAPLE WIL100 SINK & DRAINER

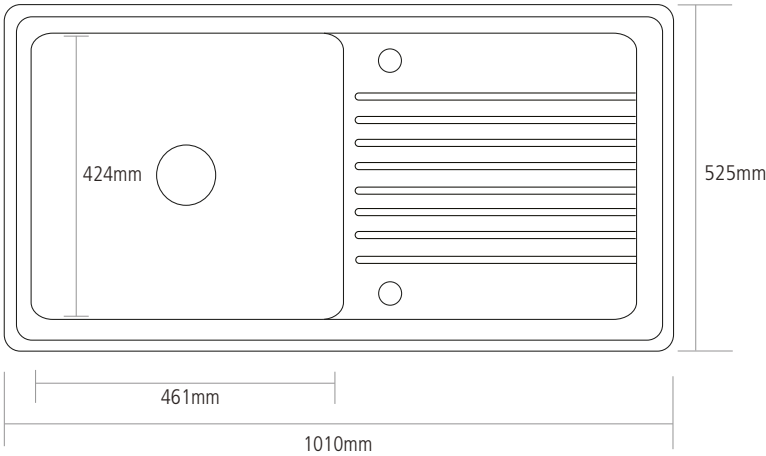

This Caple WIL100 ceramic sink and drainer features traditional styling that is perfectly suited to family life in your kitchen. Each Ceramic sink is expertly hand-finished, guaranteeing that every piece is unique.

BOWL AND DRAINER
Code: WIL100

SPECIFICATION

Length	1001mm
Width	525mm
Depth	225mm
Min base unit	600mm

We don't offer any of the taps and colour waste options in the Ceramic imagery as part of the collection. Please refer to pages 32 - 43 for our complete tap collection.

CAPLE WIL150 1.5 BOWL SINK & DRAINER

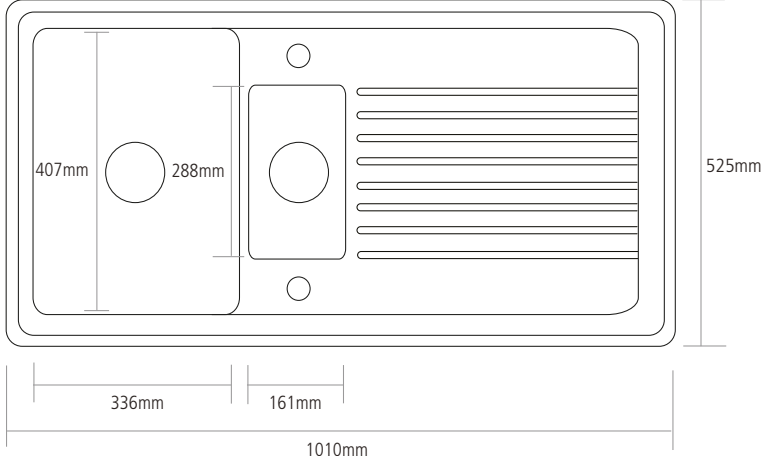

This Caple WIL150 ceramic sink and drainer features traditional styling while the larger, 1.5 bowl design is perfectly suited to a busy family life. The smaller sink allows you to soak dishes or wash and drain vegetables, freeing up the main sink for washing up.

1.5 BOWL AND DRAINER
Code: WIL150

SPECIFICATION

Length	1001mm
Width	525mm
Depth	223mm

TAPS

Complement a washing area with stylish kitchen taps that can provide a strong design statement in its own right and adds the sophisticated finishing touch.

The WEX Trade tap range includes swivel spout taps, pull-out taps and 3 in 1 hot taps with a selection of designer, classic and traditional styles, in an array of materials, colours, shapes and finishes available to help complete a unified design.

TAPS

TAP STYLES

Whether you're replacing old taps with new ones or buying them as part of a kitchen remodel, it's important to consider both the aesthetics and functionality.

There are many different types and shapes of kitchen taps to choose from, so it's helpful to understand all the options before buying. The WEX Trade range has a tap for every type of kitchen.

FULLY APPROVED

The Water Regulations Advisory Scheme (WRAS) is a certification mark that verifies that an item or package meets the stringent requirements of water regulations. Every water supplier in the UK accepts WRAS approval.

SIDE LEVER MIXER

One lever that tilts to mix hot and cold water.

TWIN LEVER

Two separate handles that can be used together or split apart: one handle for hot water and the other for cold.

BRIDGE MIXER

The spout is connected to the hot and cold water controls by a bridge and requires two holes for installation.

PULL-OUT

Has a spout on the tap that pulls out, enabling the water direction to be aimed around the sink.

3-IN-1 HOT TAP

WHAT DO YOU GET WHEN YOU HAVE A 3-IN-1 HOT WATER TAP?

- H** Everyday hot water is ideal for filling the sink with large items, washing hands, and performing other cleaning tasks.
- C** Everyday cold water – supplies cold water ideal for everyday tasks such as watering plants and removing bubbles.
- Instant steaming hot water delivers perfect filtered water for making teas, coffees, and all of your cooking needs in a safe, instantaneous, and temperature-controllable range of 75-98 degrees.
- Child safety lock mechanism

Provides hot, cold, and boiling water from a single spout.
